- Annual revenues for FY22 projected to be ~\$187M
- Three "pots" of funds distributed
- Weighted voting based on population
- Focus on leveraging local dollars for larger investment ie: debt
- Functions and powers:
 - Regional prioritization of projects
 - Annual regional transit plan
 - Oversee distribution of local funds
 - Issue bonds as needed

PROJECT DEVELOPMENT PROCESS

Project Applications

Develop a <u>full</u> inventory of regionally-significant project needs

Cost Estimates

Understand planninglevel cost factors based on engineering plans and best available information. Collaboratively develop budgets to horizon year.

Funding Plan

Use scores and benefit/cost to rank projects and develop timebands for implementation to be included in recommended plan

Performance Measures

Identify quantitative measures to assess project effectiveness and impact using key categories

Project Scoring

Score individual projects using PMs and impact data from travel demand model, EJ analysis and custom scripts
