## ***Annual Listing of Obligated Projects – Federal Fiscal Year 2016***

---

The Annual Listing of Obligated Projects (Annual Listing) includes all projects listed in the Transportation Improvement Program (TIP) for which federal funds were obligated during the preceding federal program year by the Virginia Department of Transportation (VDOT) and the Virginia Department of Rail and Public Transportation (DRPT). The Annual Listing is intended to demonstrate transportation spending decisions by providing an accounting for federal funds that have been authorized and committed by the state or designated recipients (e.g. GRTC Transit System) for expenditure on projects programmed in the TIP.

In addition to this introduction, the Annual Listing report includes reports submitted by VDOT and DRPT.

The Annual Listing does not include projects listed in the TIP with programmed obligations and no actual obligations. As a result, there are a number of projects with programmed obligations in the Richmond Regional TPO TIP for FFY16, which the TPO concludes have had zero actual obligations based on the reporting process.

The tables on the following pages describe the projects included in the TIP, identify the responsible agency, the amount of federal funds requested/obligated, and the amount of funds remaining to be obligated on the project. A “guide sheet” precedes the Annual Listing for the Richmond TPO. This guide and corresponding footnotes are designed to help the reader interpret the Annual Listing report. Should there be any questions regarding the report, please contact Sarah Rhodes at [srhodes@richmondregional.org](mailto:srhodes@richmondregional.org) or at 804.323.2033.

### **Definitions of Interest**

**Program Year:** The year in which project obligations are reported; for purposes of this report, the program year is the federal fiscal year from October 1, 2015 through September 30, 2016.

**Obligation:** An obligation is the federal government’s legal commitment to pay the federal share of a project’s cost. An obligated project is one that has been authorized by the federal agency and for which funds have been committed. Projects for which funds have been obligated are not necessarily initiated or completed during the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For projects under the auspices of the Federal Transit Administration (FTA), obligation occurs when the FTA grant is awarded. For projects under the auspices of the Federal Highway Administration (FHWA), obligation occurs when a project agreement is executed and the state/grantee requests that the funds be obligated.

**Grouping:** Projects that are not considered by the State and TPO to be of appropriate scale for individual identification in a given program year and, if in an air quality non-attainment or maintenance area, are exempt from conformity requirements; may be grouped by function, work type, and/or geographic area using the applicable classifications under federal statute.

**Richmond District (and District-wide):** Includes projects for areas and jurisdictions outside of the MPO study area.

## **Funding Sources**

**NHPP (National Highway Performance Program):** NHPP funding supports investments in the condition and performance of the National Highway System (NHS) consistent with performance targets established in Virginia's asset management plan for the NHS; the funding program results from changes in MAP-21 (Moving Ahead for Progress in the 21<sup>st</sup> Century Act).

**IM/NH (Interstate Maintenance/National Highway):** Both are federal funding programs. IM fund are dedicated to the maintenance of interstate highways; NH funds are dedicated to support federally-designated National Highway System (NHS) projects.

**STP (Surface Transportation Program):** Federal funds which may be used to support projects of virtually any type, as long as federal-aid eligibility criteria are met.

**EB/MG (Equity Bonus/Minimum Guarantee):** Each State receives a specific share of the aggregate funding for major highway programs, with every State guaranteed at least a specified percentage of that State's share of contributions to the Highway Account of the Highway Trust Fund.

**CMAQ (Congestion Mitigation/Air Quality):** Federal funding program; directs funding to projects that contribute to meeting National Ambient Air Quality Standards. Generally may not be used for projects resulting in additional highway capacity for single occupant vehicles.

**RSTP (Regional Surface Transportation Program):** STP funds specifically allocated to TMA's for project selection and distribution. Projects must meet STP eligibility.

**BROS (Bridge Replacement "On System"):** These funds can only be used to replace or repair bridges on the federal and state road systems, and come with very stringent eligibility requirements based on bridge structural condition, load-bearing capacity, etc. 80/20 match ratio.

**DEMO (Demonstration):** The federal transportation acts include demonstration, priority, pilot, or special interest projects in various Federal-aid highway and appropriations acts.

**SAFE (SAFETEA-LU):** *The Safe Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)* is the federal transportation bill that provides federal transportation funding to each state.

**ARRA (American Recovery and Reinvestment Act of 2009):** An economic stimulus package which provided federal funds for projects that would be implemented quickly to provide jobs and promote investment and consumer spending during the 2009 economic crisis.

PROJECT OBLIGATIONS

- (1) Planned Obligations by fund
- (2) Actual obligations by fund
- (1A) Total planned obligations-- Total of (1)
- (2A) Total actual obligations-- Total of (2)
- (3) Difference between FFY16 actual obligations vs. FFY16 planned obligations (Funds Remaining Available for Subsequent Years)
- \* indicates no funds remain
- (R) Obligations released from the project

SYSTEM SUBTOTAL

- (4) Total planned obligations by Fund Source by System
- (5) Total actual obligations by Fund Source by System
- (4A) Total planned obligations for System-- Totals of (4)
- (5A) Total actual obligations for System-- Total of (5)
- (6) Difference between FFY16 actual obligations vs. FFY16 planned obligations (Funds Remaining Available for Subsequent Years)
- \* indicates no funds remain

MPO TOTAL

- (7) Total planned obligations for MPO by Fund Source for all Systems
- (8) Total actual obligations for MPO by Fund Source for all Systems
- (7A) Grand Total of ALL FUND SOURCES planned obligations for MPO for all systems
- (8A) Grand Total of ALL FUND SOURCES actual obligations for MPO for all systems
- (9) Difference between FFY16 actual obligations vs. FFY16 planned obligations (Funds Remaining Available for Subsequent Years)
- \* indicates no funds remain

Notes:

- A. For projects where obligations identified with no TIP amount identified--  
The transaction was a modification and based on the sliding scale, no TIP action was required; and/or AC conversion
- B. For projects where the obligated amount exceeds the TIP amount identified--  
Based on the total estimated cost of the project phase vs. the sliding scale, no TIP action was required; and/or AC conversion
- C. By project; Funds indicated w/ (-) release of obligation
- D. Release obligations are not calculated in any totals
