## Notices and Disclaimers

### Title VI Notice

RRTPO and PlanRVA fully comply with Title VI of the Civil Rights Act of 1964 and related statutes and regulations in all programs and activities. The RRTPO and PlanRVA will strive to provide reasonable accommodation and services for persons who require special assistance to participate in this public involvement opportunity. For more information on meeting accessibility, or to obtain a Title VI Complaint Form, see PlanRVA.org or call the Title VI Coordinator at (804) 324- 2033

### Aviso del Título VI

RRTPO y PlanRVA cumplen completamente con el Título VI de la Ley de Derechos Civiles de 1964 y los estatutos y reglamentos relacionados en todos los programas y actividades. La RRTPO y el PlanRVA se esforzarán por brindar adaptaciones y servicios razonables para las personas que requieran asistencia especial para participar en esta oportunidad de participación pública. Para obtener más información sobre la accesibilidad a las reuniones o para obtener un Formulario de queja de Título VI, consulte PlanRVA.org o llame al Coordinador del Título VI al (804) 324-2033.

### Acknowledgement

The Transportation Improvement Program (TIP) was prepared by PlanRVA staff in cooperation with the United States Department of Transportation (USDOT), Virginia Department of Transportation (VDOT), and the Virginia Department of Rail and Public Transportation (DRPT), and the Richmond Regional Transportation Planning Organization (RRTPO) member jurisdictions and agencies.

### Disclaimer

The contents of this report reflect the analysis of the RRTPO as part of PlanRVA which is responsible for the facts and accuracy of the data presented herein. The contents do not necessarily reflect the official views or policies of the FHWA, the FTA, the DRPT, the VDOT, or the Board of the RRPDC. This report does not constitute a standard, specification, or regulation.

The FHWA, FTA, DRPT, or VDOT acceptance of this report as evidence of the fulfillment of the objectives of this program does not constitute endorsement or approval of the need of any recommended improvements nor does it constitute approval of their location and design or a commitment to fund any improvements. Additional project level environmental impact assessments and/or studies of alternatives may be necessary.

## Annual Listing of VDOT Obligated Projects – Federal Fiscal Year 2025

The Annual Listing of Obligated Projects (Annual Listing) includes all projects listed in the Transportation Improvement Program (TIP) for which federal funds were obligated during the preceding federal program year by the Virginia Department of Transportation (VDOT) and the Virginia Department of Rail and Public Transportation (DRPT). VDOT tends to be primarily focused on personal vehicle transportation and the required infrastructure. DRPT is primarily focused on public transit; these projects also support the infrastructure for these services. The Annual Listing is intended to demonstrate transportation spending decisions by providing an account for federal funds that have been authorized and committed by the state or designated recipients (e.g., GRTC Transit System) for expenditure on projects programmed in the TIP.

In addition to this introduction, the Annual Listing report includes reports submitted by VDOT and DRPT.

The Annual Listing does not include projects listed in the TIP with no FY25 obligations. As a result, there are many projects with programmed obligations in the Richmond Regional TPO TIP for FFY25, which the TPO concludes have zero actual obligations based on the reporting process. Should there be any questions regarding the report, please contact Kerry Wagenhauser at [KWagenhauser@PlanRVA.org](mailto:KWagenhauser@PlanRVA.org) or at 804.924.9616.

## The Annual Obligation Report (AOR)

Reporting Period: Federal Fiscal Year 2025 (October 1, 2024, to September 30, 2025)

Purpose: This report provides transparency on how federal transportation funds were obligated in our region during the past fiscal year. It lists projects that received federal funding commitments and shows how these investments align with our regional transportation goals. It ensures public visibility into transportation spending decisions, supports compliance with federal requirements, and helps evaluate whether investments align with long-range transportation plans. The AOR is essentially a financial accountability tool mandated by federal law for Metropolitan Planning Organizations (MPOs). It demonstrates how planned projects in the Transportation Improvement Program (TIP) translate into actual federal funding obligations. Obligations do not equal expenditure or project completion; they represent a commitment to reimburse eligible costs.

Key Components:

- A list of projects with obligated federal funds during the fiscal year.
- Comparison between planned obligations (from the TIP) and actual obligations.
- Funding sources and categories (e.g., CMAQ, NHPP, STBG).
- Notes on discrepancies and explanations for variances.

## The Transportation Improvement Program (TIP)

The TIP is the region's collaborative list of transportation investments for a four-year period. This TIP covers the federal fiscal years 2027 to 2030 and is in effect starting October 1, 2025. The TIP includes:

- Projects awarded RRTPO's federal funds,
- Projects using federal and state dollars managed by the Virginia Department of Transportation (VDOT) or Department of Rail and Public Transportation (DRPT) and,
- Regionally significant projects, regardless of funding source, which must be included in the air quality analysis and conformity determination.

Development of the TIP is the region's opportunity to review regionally significant projects and projects awarded federal funding through various competitive processes to ensure they align with the goals and vision for the future in Pathways to the Future: Transportation 2050, the long-range transportation plan. Through the TIP process, the region works to develop consensus on a list of projects to move forward. Once a project is in the TIP, the project or a phase of the project can be authorized in a federal agreement under which the federal government commits to reimburse the state for a share of eligible costs. This commitment is called an obligation.

Projects or project phases are only included in the TIP if full funding for the project is reasonably anticipated to complete the project. To meet this requirement, the TIP includes a financial analysis showing how the planned projects can be undertaken with expected revenues.

After the TIP is approved, the TIP is included in the Statewide Transportation Improvement Program (STIP). The STIP includes all TIPs in the state as well as projects to be undertaken outside of MPO boundaries. The approved TIP documents are sent to the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) for review and acceptance.

## Definitions of Interest

**Program Year:** The year in which project obligations are reported; for purposes of this report, the program year is the federal fiscal year from October 1, 2024, through September 30, 2025.

**Obligation:** An obligation is the federal government's legal commitment to pay the federal share of a project's cost. An obligated project is authorized by the federal agency for which funds have been committed. Projects for which funds have been obligated are not necessarily initiated or completed during the program year, and the amount of the obligation will not necessarily equal the total cost of the project. For projects under the auspices of the Federal Transit Administration (FTA), obligation occurs when the FTA grant is awarded. For projects under the auspices of the Federal Highway Administration (FHWA), obligation occurs when a project agreement is executed, and the state/grantee requests that the funds be obligated.

**Grouping:** Projects that are not considered by the State and TPO to be of appropriate scale for individual identification in a given program year and, if in an air quality non-attainment or maintenance area, are exempt from conformity requirements; may be grouped by function, work type, and/or geographic area using the applicable classifications under federal statute.

**Richmond District (and District-wide):** Includes projects for areas and jurisdictions outside of the MPO study area.

## Transit Funding Programs

**Urbanized Area Formula Grants (5307):** Provides funding to public transit systems in large urban areas for capital, planning, job access projects, and some operating expenses such as ADA paratransit and preventive maintenance

**Fixed Guideway Capital Investment Grants (5309):** Discretionary program for funding major transit capital projects such as BRT, light rail, and streetcars

**Enhanced Mobility of Seniors and Individuals with Disabilities (5310):** Program to assist local transit agencies, governments, and nonprofit groups in meeting needs of elderly and persons with disabilities

**Rural Area Formula Grants (5311):** Provides funding for capital, planning, and operating assistance to support public transportation in small urban and rural areas under 50,000 in population

**State of Good Repair Formula Program (5337):** Provide capital assistance for maintenance, replacement, and rehabilitation of existing fixed guideway (e.g., rail lines, bus lanes) facilities to maintain state of good repair

**Bus and Bus Facilities Formula Program (5339a):** Provides funding to transit agencies and states to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities

**Bus and Bus Facilities Discretionary Grants (5339b):** Discretionary component of the program to fund the same bus and bus facility improvements; includes Low or No Emissions Bus Program

## Highway Funding Sources

**FEDERAL - AC CONVERSION:** Federal funds are used to convert Advance Construction projects into actual funded projects when money becomes available.

**FEDERAL - AC OTHER:** Federal funds for different types of Advance Construction projects that don't fit specific categories like AC Conversion.

**FEDERAL - AC:** Federal funds allow states or local governments to start projects before federal money is available.

**FEDERAL - BR:** Federal funds for maintaining and repairing bridges on major highways.

**FEDERAL - CMAQ:** Federal funds are used to support transportation projects that reduce air pollution by improving traffic flow and reducing emissions.

**FEDERAL - CRP/F:** Federal funds for projects that help repair or replace transportation infrastructure, focusing on capital renewal.

**FEDERAL - DEMO:** Federal funds for pilot projects that test new transportation ideas or technologies.

**FEDERAL - HIP/F:** Federal funds for highway improvement projects, often focused on rural or less-developed areas.

**FEDERAL - HSIP:** Federal funds to improve safety on roads and reduce accidents, injuries, and fatalities.

**FEDERAL - NHFP:** Federal funds for maintaining and improving roads that are part of the National Highway Freight Network, which supports freight movement.

**FEDERAL - NHPP/E:** Federal funds for improving roads on the National Highway System to make travel safer and more efficient.

**FEDERAL - NHS/NHPP:** Federal funds for improving and maintaining the National Highway System to support better road conditions and travel efficiency.

**FEDERAL - RSTP:** Federal funds used for regional transportation projects that focus on maintaining and improving transportation systems.

**FEDERAL - RTAP:** Federal funds to help improve public transportation systems in rural areas.

**FEDERAL - STP/STBG:** Federal funds for surface transportation projects that help maintain and improve roads and highways at the state or local level.

**FEDERAL - TAP/F:** Federal funds for projects that improve walking and biking paths, as well as other small-scale transportation projects.

**OTHER:** Non-federal funds that may come from state or local governments, private sources, or special grants.

## RRTPO staff review of FY2025 Annual Obligation Report (AOR) Input

RRTPO staff received the Virginia Department of Transportation (VDOT) portion of the AOR on 10.23.2025, and the Virginia Department of Rail and Public Transit (DRPT) portion of the AOR on 11.12.2025. While the VDOT report includes eight categories, such as Interstate System, Primary System, Urban System, Secondary System, Enhancement, Public Transportation, Miscellaneous, and Grouping, the DRPT report shows the transit category only. The RRTPO analyzes the information reported in the AOR as it relates to the RRTPO's FY24 – FY27 Transportation Improvement Program (TIP). The goal of this analysis is not to pursue revisions, but to document more fully information related to funding obligation processes for projects within the RRTPO. This review produced the following findings:

### NOTE:

- The FY25 VDOT and DRPT Annual Obligation Reports (AORs) show actual obligation funds, while the FY24 RRTPO TIP shows planned obligations funds.
- The VDOT FY25 Annual Obligation Report does not include AC, AC Conversion, or other funds that the FY25 TIP includes.
- There are frequent discrepancies between planned obligations and actual obligations.
- Project analysis accounts for projects designated as “In Close Out” and understands that these projects do not need to be included in the TIP.
