Richmond Cycling Corp	Emily Monroe	
RVA Rapid Transit	Chad Sanders	

	Stephanie Power (A)	
Southern Environmental Law Center	Trip Pollard	X
Youth Representative	Diana Hall	
	Marisa Perez (A)	
Partnership for Housing Affordability	Woody Rogers	X

1. Attendance

L RTP Project Manager Dorian Allen welcomed everyone and asked each person to put their name and affiliation in the chat.

2. April 8, 2026, LRTP-AWG Meeting Summary

Dorian informed the group that a summary of the meeting was included within the agenda packet.

There were no amendments to the meeting summary.

3. Public Comment Period

There were no requests to offer public comment.

4. LRTP Progress Update

Dorian presented a review of the condensed LRTP process flow with an overview and timeline for past and upcoming tasks.

5. LRTP Phase 6: Constrained Plan Development – Consensus Scenario

Dorian presented information about the development of the consensus scenario, starting with project champion and public input. Following this input, final checks for locality projects to add or remove, and the removal of several newly-funded Committed Projects, the initial constrained project list exceeded available budget by about \$500 million dollars. This issue was addressed through AWG discussion at the last meeting, resulting in the consensus scenario, which represents a true constrained project list. The final list includes 121 projects, meeting about 66% of needs. Dorian described the breakdown by mode.

Dorian next described some lessons learned, noting that the public input for the investment survey had low response rate due to complexity and was not representative of regional demographics. Dorian described some considerations for addressing these lessons.

Finally, Dorian described next steps including air quality conformity analysis, system-level comparative analysis with the future land use scenarios, completion of the draft document for AWG and public review, and ultimately Policy Board consideration.

The AWG did not have any questions or comments.

6. LRTP Phase 6: Constrained Plan Development – Air Quality Conformity Analysis

Dorian presented information on the air quality conformity analysis. He described the regulatory basis for this analysis and the history of air quality attainment in the region. In 2018, the region was classified as in attainment, but conformity requirements remain. Dorian described the process for air quality conformity analysis, including interagency coordination,

RRTPO Technical Advisory Committee review, and public review. The Analysis will include 2050 LRTP Consensus Scenario and the TIP.

The AWG did not have any questions or comments.

7. Next Meeting

Dorian noted that the next meeting will be on June 24, 2026 and the material will be sent out to the group in advance of that meeting.
