

HISTORY, GOALS & MISSION

The Emergency Management Alliance of Central Virginia (the Alliance) was created from the post 9-11 Homeland Security Urban Area Security Initiatives - Urban Area Working Group (UAWG). Its footprint includes the 25 localities and four sovereign tribes/nations in VDEM's Region 1. The Alliance is a forum for government agencies, emergency managers, emergency responders, public safety, the private sector, and non-profit partners to enhance situational awareness, share lessons learned and best practices, collaborate on plans, develop solutions, participate in training and exercises, and enhance emergency management resources at all levels in Central Virginia. By building strong networks and partnerships, the Alliance has provided unique leadership to leverage both professional and grant resources in support of regional priorities.
