

HB 1588 Electric Vehicle Rural Infrastructure Program and Fund; created.
02/03/23 House: Tabled in Appropriations (12-Y 9-N)

Electric Vehicle Rural Infrastructure Program and Fund created. Creates the Electric Vehicle Rural Infrastructure Program and Fund to assist private developers with non-utility costs associated with the installation of electric vehicle charging stations. The bill provides that a private developer is eligible to receive grants of 70 percent of such non-utility costs for electric vehicle charging stations installed in a city or county that meets the criteria of a distressed locality as provided in the bill and caps the total amount of grants awarded in any fiscal year at \$25 million.

SB 779 State Air Pollution Control Board; motor vehicle emissions standards.

01/17/23 Senate: Passed by indefinitely in Agriculture, Conservation and Natural Resources (8-Y 7-N)

State Air Pollution Control Board; motor vehicle emissions standards. Repeals the requirement that the State Air Pollution Control Board implement a low-emissions and zero-emissions vehicle program for motor vehicles with a model year of 2025 and later. The bill prohibits the Board from adopting or enforcing any model year standards related to control of emissions from new motor vehicles or new motor vehicle engines, including low-emission vehicle and zero-emission vehicle standards pursuant to the federal Clean Air Act and prohibits the Commonwealth from requiring any new motor vehicle or new motor vehicle engine to be certified as compliant with model year standards related to the control of emissions adopted by California for which a waiver has been granted pursuant to the federal Clean Air Act.
