Greater RVA Transit Vision Plan: Near-Term Strategic Technical Analysis

Progress Report: Implementation Feasibility Evaluation

Technical Advisory Committee

August 11, 2020

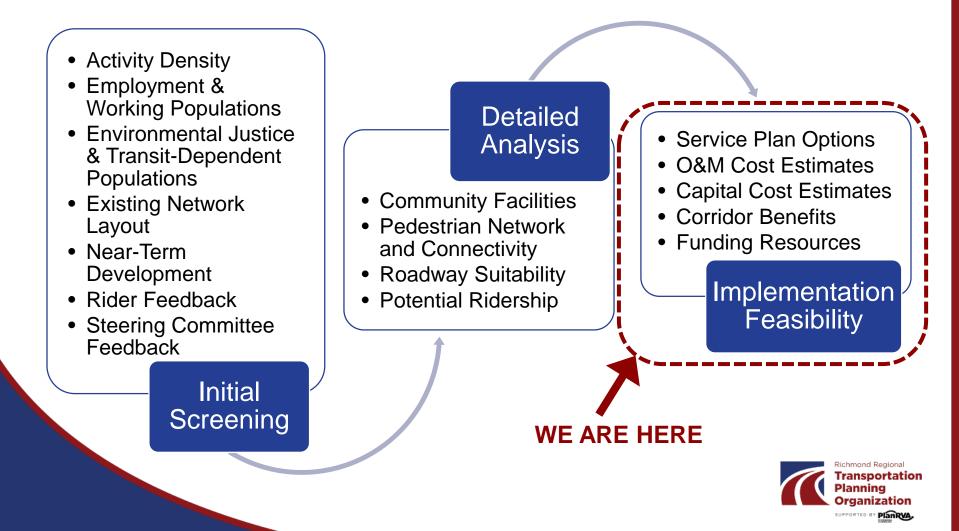

Study Purpose

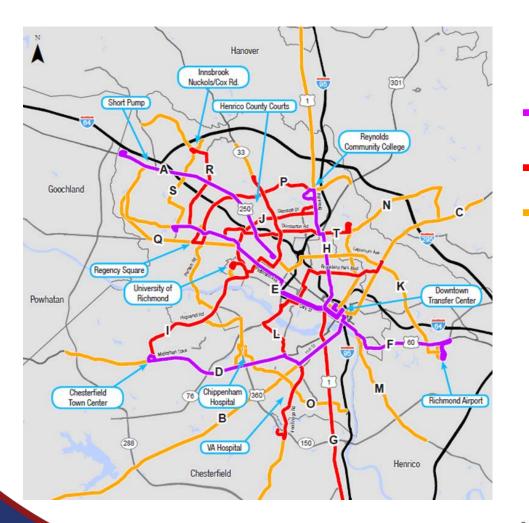

- Build upon the Greater RVA Transit Vision Plan (2017) and recent transit improvements in the Richmond Region
- Identify recommendations for high-frequency routes that can be implemented in the near-term to advance toward the region's long-term vision

Analysis Methodology

Study Corridors

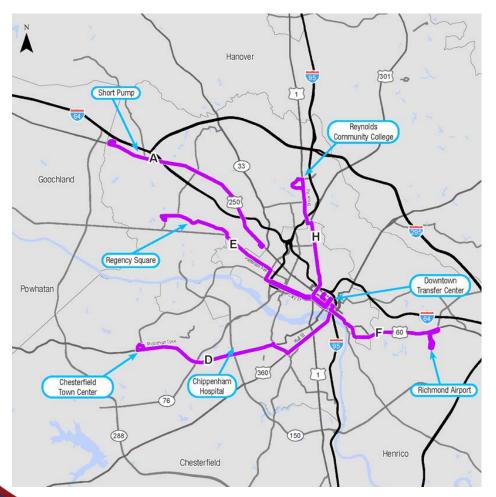

Legend

Corridors Selected for Implementation Feasibility
Detailed Analysis Corridors
Initial Screening Corridors

Corridors Selected for Implementation Feasibility

Legend

Corridors Selected for Implementation Feasibility

- A. Broad Street Short Pump (Willow Lawn to Bon Secours Short Pump)
- D. Midlothian Turnpike (Downtown Richmond to Huguenot Road)
- E. West End South (Downtown Richmond to Regency Square)
- F. Airport via Route 60

(Downtown Richmond to Richmond Airport)

H. Route 1 to Ashland (Downtown Richmond to Parham Road)

SUPPORTED B

PlanRVA

Corridor Service Plan Assumptions

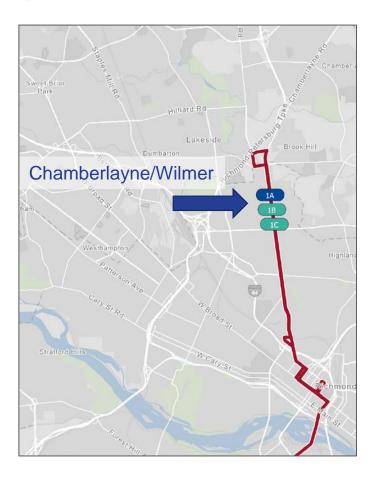

- Two scenarios defined for each corridor
- Seven day a week service for all corridors
- Proposed corridor routes build on current network
- Ultimate recommended service changes subject to GRTC approval and funding
- Annual Operations & Maintenance costs estimated using current GRTC cost per service mile of \$7.63

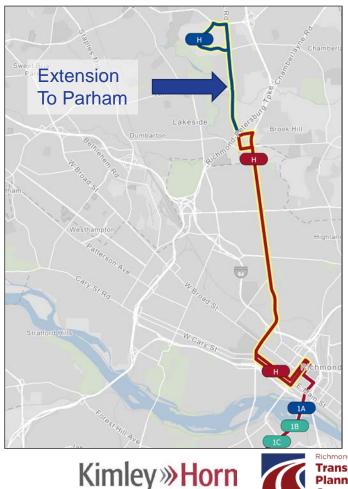

Corridor H: Route 1 North

Extension from Chamberlayne/Wilmer to Parham Road

Option 1: 30-minute service on extension Option 2: 15-minute service on extension

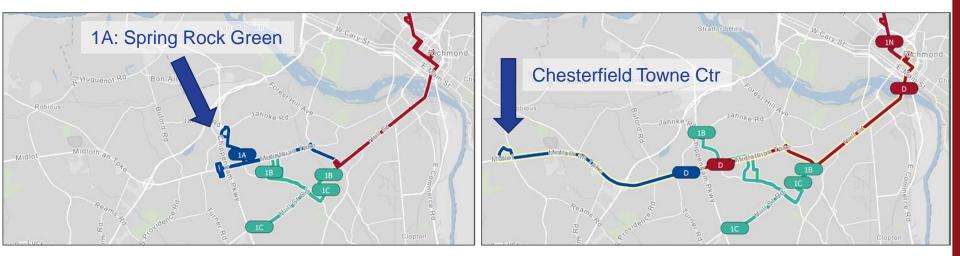

Richmond Regional Transportation Planning Organization

Corridor D: Midlothian Turnpike

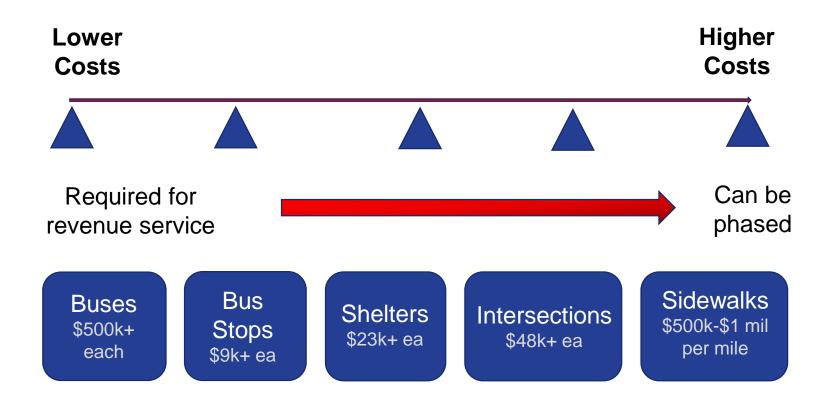

Extension of 1A to Chesterfield Town Center

Option 1: 30-minute service on extension Option 2: 15-minute service on extension

Capital Costs Continuum

Example - Route 1 North (H) Capital Cost by Component

| | Option 1 | Option 2 | | | |
|----------------------------------|---------------------|-------------|--|--|--|
| Vehicles | \$1,870,000 | \$2,340,000 | | | |
| Bus Stop Amenities | \$320,000 | | | | |
| Shelters | \$180,000 | | | | |
| Cidowalk | \$6,020,000 (Low) | | | | |
| Sidewalk | \$11,960,000 (High) | | | | |
| Intersection Improvements | \$430,000 | | | | |
| Transit Signal Priority (TSP) | \$680,000 | \$690,000 | | | |

Range of Capital Costs

| Corridor | Low | High |
|-------------------------|--------------|----------------|
| A. Broad St-Short Pump | \$ 1,870,000 | \$ 24,250,000 |
| D. Midlothian Turnpike | \$ 2,740,000 | \$ 40,510,000 |
| E. West End South | \$ 1,920,000 | \$ 13,400,000 |
| F. Airport via Route 60 | \$ 1,870,000 | \$ 24,090,000 |
| H. Route 1-north | \$ 2,190,000 | \$ 15,910,000 |
| Total | \$10,590,000 | \$ 118,160,000 |

Range of Operating Costs

| Corridor | Low | High |
|-------------------------|--------------|---------------|
| A. Broad St-Short Pump | \$ 581,000 | \$ 1,581,000 |
| D. Midlothian Turnpike | \$ 2,274,000 | \$ 2,872,000 |
| E. West End South | \$ 2,229,000 | \$ 3,103,000 |
| F. Airport via Route 60 | \$ 2,068,000 | \$ 4,804,000 |
| H. Route 1-north | \$ 854,000 | \$ 1,213,000 |
| Total | \$ 8,006,000 | \$ 13,573,000 |

Implementation Activities

- Secure Funding
 - Planning/Design funds
 - Capital funds
 - Operations & Maintenance funds
- Corridor Planning (with localities & CVTA)
 - Identification of bus stop locations
 - Prioritization of sidewalk and intersection improvements
 - Identification of technology improvements
 - Refinement of service schedule
 - Coordination of service between proposed corridor and existing routes
- Procure Vehicles
- Design and Construct Improvements
- Operate Service

Next Steps

- RRTPO Technical Advisory Committee approval
- RRTPO Policy Board approval
- Finalize report documenting near-term strategic implementation recommendations

TAC Action

TAC ACTION REQUESTED: The following resolution is presented for TAC review and recommendation to the RRTPO Policy Board:

RESOLVED, that the Richmond Regional Transportation Planning Organization Policy Board adopts the proposed plan for the Regional Transit Vision Plan Near-Term Strategic Technical Analysis of five corridor segments considered for enhanced transit in the near-term (five to seven years) planning horizon.

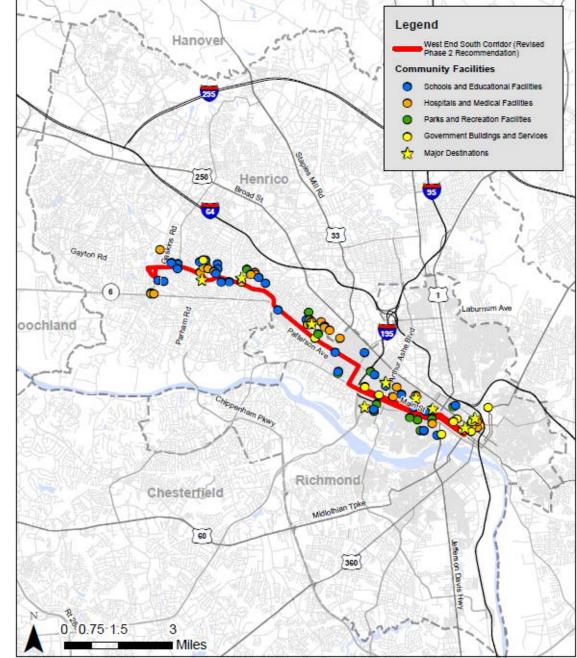

Additional details

 See following slides for more detail on screening analysis (from March 19, 2020 CTAC meeting that was cancelled)

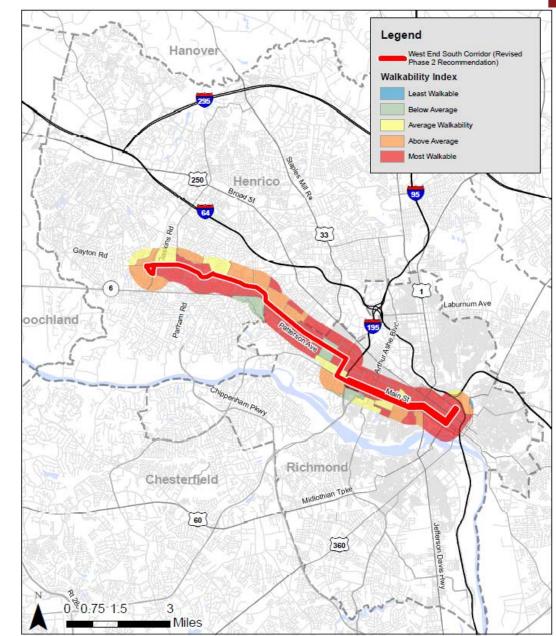

Community Facilities

- Identified community facilities within ½ mile of route
 - Schools and Educational Facilities
 - Hospitals and Medical Facilities
 - Parks and Recreation Facilities
 - Government Buildings and Services
 - \bigstar Major Destinations
 - Grocery Stores (reviewed but not shown)

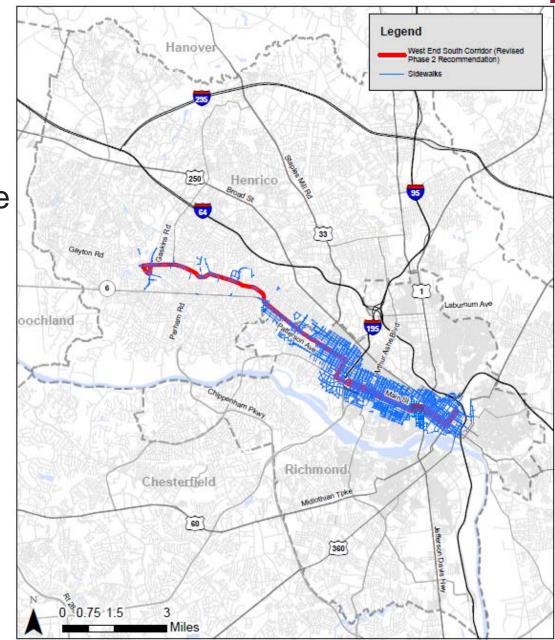

Walkability

- Highlighted areas that might be desirable to walk in if safe walking conditions are available
 - Based on EPA's walkability index

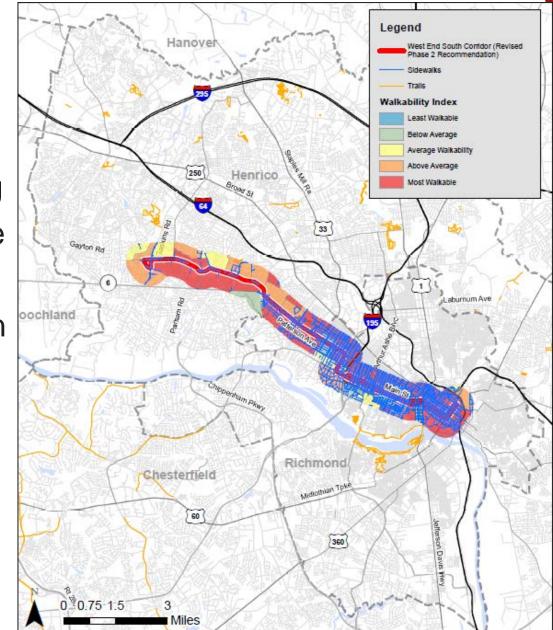

Pedestrian Network

- Evaluated existing pedestrian infrastructure
 - Percent of roadway network within ½ mile of route with sidewalk

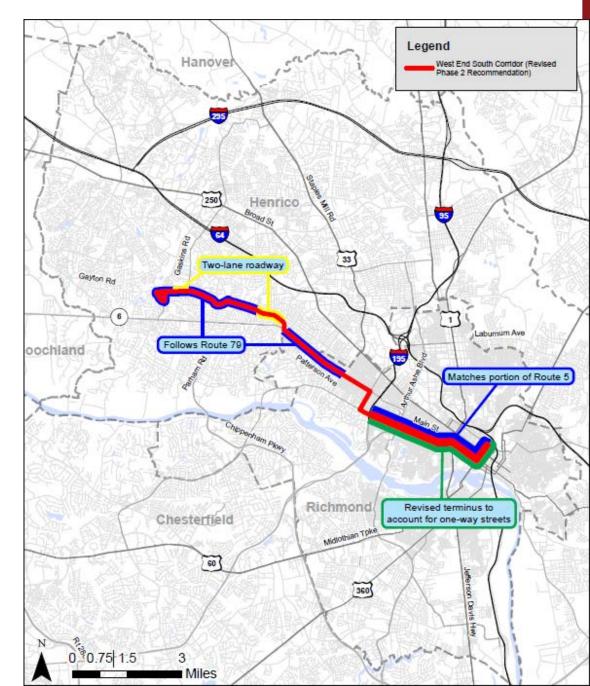

Pedestrian Connectivity

 Overlap of walkability index score and existing pedestrian infrastructure identifies areas where investment in pedestrian infrastructure may be needed to support connections to transit

Roadway Suitability

- Reviewed roadway characteristics of routes and identified:
 - One-way streets
 - Two-lane roads
 - Difficult turning radii
 - Unsignalized left-turn movements
 - Turnaround locations
 - Alignment with existing GRTC routes

Corridor Capital Cost Assumptions

- Provide a variety of potential infrastructure improvements that could be implemented in each corridor
- Align with service plan options
- Account for vehicle, bus stop, shelter, sidewalk, intersection, and transit technology costs
- Based on current local capital construction costs and cost estimates from GRTC, Chesterfield County, Henrico County, City of Richmond, and VDOT

Summary of Capital Costs

Low Capital Cost

High Capital Cost

| | Corridor | Option 1 | Option 2 | Corridor | | Option 1 | Option 2 |
|---|------------------------------|-----------------------------|-----------------------------|----------|------------------------------|------------------------------|------------------------------|
| A | Broad Street - Short Pump | \$ 1,870,000 | | A | Broad Street - Short Pump | \$ 24,250,000 | |
| D | Midlothian Turnpike | \$ 2,740,000 | \$ 3,210,000 | D | Midlothian Turnpike | \$ 40,050,000 | \$ 40,510,000 |
| E | West End South | \$ 1,920,000 | \$ 2,860,000 | Е | West End South | \$ 12,450,000 | \$ 13,400,000 |
| F | Airport via | 1 \$ 1,870,000 | <mark>2</mark> \$ 2,800,000 | F | Airport via Route 60 | <mark>1 \$ 23,150,000</mark> | <mark>2</mark> \$ 24,090,000 |
| Г | Route 60 | <mark>3</mark> \$ 2,340,000 | <mark>4</mark> \$3,740,000 | Г | | <mark>3</mark> \$ 34,630,000 | 4 \$ 44,570,000 |
| н | Route 1 North | \$ 2,190,000 | \$ 2,650,000 | н | Route 1 North | \$ 15,440,000 | \$ 15,910,000 |
