Cumulative Investment Earnings FY2021 (000's)

Investment earnings for fiscal year 2021 reflect significantly lower yields than in the last several years. Treasury yields have not been lower since 2016. Despite the lower yields, the County's portfolio is more diversified and has included higher yielding investment types than in previous years. Treasury yields are expected to remain near zero for the next couple of years.

Benchmark Comparisons

The 91-Day Treasury Bill, 6-Month Treasury Bill and the Virginia Treasury Prime Liquidity are used as benchmarks for the County's portfolio performance. For the month of June, the County's performance exceeds all of the benchmarks. The decrease in the County's year-over-year change is due to maturities of higher yielding investments.
