

RURAL TRANSPORTATION ANALYSIS

Regional Transit Program

Connecting communities, enhancing mobility, and shaping the future of rural transportation in the Richmond region

Project Overview

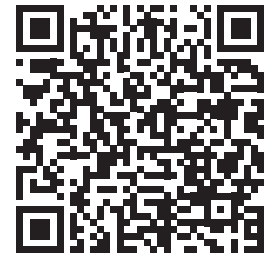

The Rural Transportation Analysis is designed to better understand and address the **public transportation needs** of rural communities in **Charles City, Goochland, Hanover, New Kent, and Powhatan** counties.

What are the goals of this project?

- 1 Ensure Inclusivity**
Focus on older adults, persons with disabilities, and other underserved populations
- 2 Evaluate Public Transportation Needs**
Understand the current and future public transportation demands of rural communities
- 3 Explore Innovative Solutions**
Investigate and propose alternatives that can meet diverse needs and provide better access to services and opportunities
- 4 Promote Sustainability**
Develop solutions that are environmentally and economically responsible

**Take
the rural
needs
survey**

by October 1, 2024

**Help us shape
the future of rural
transportation
in the Richmond
region!**
