

SMART SCALE Round 7

Richmond District Pre-Application Status

NEXT STEPS

Pre-Applications will be reviewed for eligibility and readiness with Final Applications due August 3rd for funding consideration.

Key Details

The Richmond District began coordinating with localities in October and identified over 100 pre-application ideas.

The SMART SCALE Pre-Application portal was open from March 1 to April 1, 2026.

As of April 2, 2026, there are a total of 335 pre-application submittals statewide.

The Richmond District has a total of 82 pre-applications, accounting for 24% of the statewide submittals.

Planning Studies Resulting in a Round 7 Pre-Application

25 of the Richmond District's pre-applications resulted from a recently completed or underway STARS or Pipeline study.

Approximately 35 of the Richmond District's pre-applications resulted from a local study, Road Safety Audit (RSA), Arterial Preservation Program Study, or other study program.

The remaining pre-applications were either reappplies from SMART SCALE Round 6, or included technical memos to support the project's eligibility.
